CEU Requirements: Current
To renew your Electrical Qualifications Card, you must obtain, every three years, at least 1.5 CEU’s (15 hours of instruction) for Journeyman or Low Voltage Technician, or 3.0 CEUs for Master, related to the electrical trade.

1. A one-day class or eight tenths (0.8) CEU must be from a code-change class highlighting code changes to the current edition or future enforced edition of the National Electrical Code for the renewal period.
2. The balance of the CEU’s can be from other acceptable providers on electrical safety and code related topics will be accepted.

Only CEUs issued by specific organizations on electrical safety and code related topics will be accepted. For more information on providers and courses that are acceptable for CEUs, see the ESP Website.

CEU Requirements: Effective 7/1/2020
To renew your Electrical Qualifications Card, you must obtain, every three years, at least 1.8 CEU’s (18 hours of instruction) for Electrical Journeyman, Sign or Low Voltage Technician cards and 3.0 CEUs for Master, related to the electrical trade. These CEU’s must consist of the following at a minimum:

1. A one-day class or eight-tenths (0.8) CEU’s must be from a code-change, a one-day highlighting code changes to the current edition or future enforced edition of the National Electrical Code for the renewal period CEU.
2. A 4-hour class or four-tenths (0.4) CEU’s must be on Electrical Safety based on NFPA70E current edition for the period of renewal.
3. The balance of the CEU’s can be from other acceptable providers.

Only CEUs issued by specific organizations on electrical safety and code related topics will be accepted. For more information on providers and courses that are acceptable for CEUs, see the ESP Website.
We were passed NO information on the currently approved providers listed above so, all providers will need to reapply under the new program (Applications and complete information will be available on the website on 4/01/20). All providers will need to submit a new application, lesson syllabus, learning objectives, timetables and method of training for each course being taught. If a provider is an ICC preferred provider with the CEU course to be taught and documentation is provided, they will receive immediate approval. All classes taken for CEU’s must be electrical safety and code based and from an approved provider on this list or they will not be accepted.
